Sermon Discussion Questions

Walk in the Spirit // Galatians 5:19-26

- “Walk” by the spirit and you will not gratify the desires of the flesh. Walk refers to every part of your life. What areas of your life do you need to align with the way of Jesus and the Spirit?
- We can do outwardly spiritual-looking actions by our sinful nature in an attempt to save oneself. The actions aren’t *bad* in nature, but are opposed to what God really wants for us. Are there ways you’re using actions in an attempt to manipulate others or God to love and approve of you?
- There is a difference between obeying law and being under the law. We are not under the law in order to know we’re acceptable and pleasing to God, though we should obey the law, because God delights in this. When we fail, we aren’t removed as a son or daughter of God. Do you need to remind yourself of this truth? How can this transform how you live day-to-day? How does it change how you respond when confronted with your own sin.
- Do you live by a life-sucking set of rules that you believe you need to abide by?
- Ask your spouse or a close friend: Am I more patient today than I was two years ago? Am I more self-controlled today than when we met?
- Are you actively choosing to walk with, walk by, and walk in the Spirit? Or are you just hoping that God will transform you without effort on your part?

- Who are you being led by? Who are you following? Look at your life - priorities, responses, choices, etc. Are you led by your family, spouse, self, world, or choosing to be led by the Holy Spirit?
- Does the fruit in my life come from the Spirit or from my desire to be loved, accepted, wanted?
